

OUR MISSION

St. Elizabeth Early Childhood Development Center (ECDC) is committed to providing quality care in a safe, loving, Catholic-Christian environment, allowing caregivers an opportunity to take time out, thereby building stronger families. We will work together to develop positive structure and support for children in a Christ-centered way.

PHILOSOPHY

Our program's educational philosophy stems from the belief that all children should be able to grow through accomplishment and with a strong sense of self-worth; therefore, **we believe children learn best through play.**

We offer a hands-on approach for children to learn about God and the world around them. We strive to provide an environment which encourages this, while recognizing individuality within your child.

The children are taught respect for others as well as themselves, for it is through self-respect that children are able to grow. We make every effort to give children a strong foundation for learning – one that will stay with them throughout their lifetime.

We would love for your family to join us and be a part of our wonderful program!
